## Strengthening the Components of Inspection Bodies in the Ministry of Labour: Increasing Financial and Logistical Resources

Name of the Ministry or Institution	Ministry of Labor
Project Objectives	The project aims to strengthen the capacity of inspection bodies in the workplace, through providing logistical support to the inspection departments, including the provision of vehicles so that they can conduct regular efficient inspection visits, since Ministry of Labor covers only 10-15% of the number of establishments in Palestine, due to the lack number of vehicles, which affects their ability to enforce the Labor Law and related legislations.
Project Description	<p>Ensuring compliance with OSH legislation is a major challenge for all countries, and multiple approaches are required. Inspectorates have the duty to carry out inspection of workplace environment.</p> <p>The development of the work of these Inspectorates and the development of inspection in general should be done in several directions, including logistical support provision to the Inspectorates, including providing vehicles, so that they can carry out the inspection effectively.</p> <p>Inspectorates in the Ministry of Labor cover only 10-15% of the number of Establishments in Palestine, and this is due to the lack of transportation, and consequently their inability to enforce the Labor Law and related legislation.</p>
Duration of the project	12 Months
Project Cost (USD)	\$ 1,700,000 USD
Ministries and institutions Responsible for Implementation	Ministry of Labor
Project Beneficiaries	A. 255300 workers with pay in the private sector. B. 90 work inspectors and 23 OSH inspectors in MOL. C. 52000 stakeholders.
